

Standing Seam Profiles from ICB

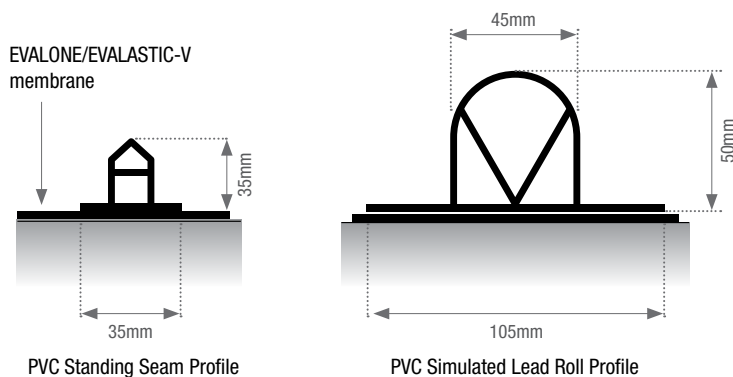

Standing Seam Profiles from ICB

ICB's standing seam detail is fast and easy to apply. It is highly cost effective and adds considerably to the aesthetic or visual appeal of any roof design. Waterproofing with a standing seam detail membrane from ICB is quite literally, seamless, and superb performance and longevity is guaranteed.

ICB membranes in conjunction with standing seam detail can be fully adhered using a range of special adhesives. They can be mechanically fixed, loose laid and ballasted or come complete with a specially developed self adhesive backing - ideal for flame/heat free environments.

PVC Profiles compatible with all ICB membrane

PRODUCT AND TECHNICAL DESCRIPTION

- ICB standing seam profiles are extruded hollow profiles.
- Length: 2 m
- Colour: light grey, slate grey, other colours on request

The application of ICB standing seam profiles is as easy and safe. Both waterproofing membrane and profile perfectly adjust to the given roof structure.
